## The History of Round Grove Products

In 2012, while installing an outdoor kitchen and fireplace, Scott Widmer realized there was an opportunity to reduce assembly and installation time using pre-fab hardscaping features, such as cabinets and fireplaces. He started making panelized, collapsible outdoor kitchen cabinets and storage sheds. Over the next two years, Scott was relentlessly seeking customer feedback to refine design features and develop product options. The products installed quicker, eliminated the logistics of materials and skilled labor compared to other fireplace kits, were easier to customize, and lowered total installation cost.

Round Grove manufactured the first ready-to-finish fireplace model in 2013. Brick oven production began in 2015. The Kiva-Mezzo combination unit (U.S. Patent No. 10,480,793) was created in 2015 and available for sale the following year. New sizes, new features, and new variations continue to be introduced each year.

Distribution was mainly in the Great Lakes region from 2012 to 2015, but once Round Grove launched a website, customers from all over the nation took interest. The first international sale was in 2017. From the Widmer's garage in 2012, production moved into a local Amish workshop without electricity, Wi-Fi, or running water. As the workforce grew, production moved to our present facility and showroom with all the utilities.

Round Grove strives to create high-quality products that reduce assembly and installation costs, provide a broad array of customization, and are generally available in five weeks or less lead time. New products are developed relying on customer input and feedback. Today, Round Grove Products is represented by over 100 dealers throughout the USA and continuing to expand due to the commitment of owners Scott and Bonnie Widmer to premium customer service, customization of features, and quick turnaround.

## COMBINATION UNITS

Make the focal point of your outdoor entertainment space a fireplace and a brick oven unit. This unique prefabricated combination is only available from Round Grove Products.\* The fireplace and brick oven are two independent combustion chambers with separate flues. You can enjoy a fire in the fireplace or you can enjoy sweet and savory goodness roasting in the brick oven or you can do both simultaneously.

*\*US Patent No. D861410 & 10,480,793 - For use no closer than 36" from combustible construction.*

## Fiesta Dual-Flue Outdoor Fireplace & Brick Oven Combo Units

U.S. Patent Nos. D861410 & 10,480,793  
Canadian Patent No. 180048

- 18 ga. galvanized steel construction
- Pre-scratch-coated and ready-to-finish
- Fire brick installed on the interior
- Silver-Tone chimney cap included on fireplace flue (not shown)
- Stainless chimney cap included on brick oven flue (not shown)
- Brick oven in-door thermometer included
- Hinged cast iron door
- Stainless steel log grate included (not shown)
- Pizza peel included (not shown)

*Raised hearth sold separately*

### CU2200

**Fiesta Brick Oven over Mini Firebox**  
Weighs about 2100#

**DIMENSIONS:**  
39"W x 42"D x 119"H  
21" x 25" brick oven

### CU2400

**Fiesta Brick Oven over Poco Firebox**  
Weighs about 2400#

**DIMENSIONS:**  
48"W x 42"D x 119"H  
29" x 25" brick oven

### CU2600

**Fiesta Brick Oven over Mezzo Firebox**  
Weighs about 2700#

**DIMENSIONS:**  
55"W x 42"D x 119"H  
37" x 25" brick oven

### CU2800

**Fiesta Brick Oven over Largo Firebox**  
Weighs about 3100#

**DIMENSIONS:**  
63"W x 42"D x 119"H  
45" x 25" brick oven

## Fiesta Combo Unit Options

FBR	Fire Brick Color Upgrade from Buff to Red (firebox only)

## PRE-FINISHED PRODUCTS

**ProVia Saginaw LedgeStone with  
Buff caps and hearthstones**

10

## PRE-FINISHED PRODUCTS

Round Grove Products offers pre-finished products using Casa di Sassi or Prestige Stone Products veneers. Now your fire feature can be delivered and set into place with a minimum amount of time required to be completely finished and ready to use!! Here are some examples of finishes customers have specified:

Casa di Sassi

Prestige Stone Products

Provia Stone

70/30 mix of Prestige Monterey ledgestone and Bluegrass fieldstone with Casa di Sassi Terra chiseled capstones and Brown brick soldier courses

Casa di Sassi Salerno limestone with limestone caps

Prestige Charcoal Weatherledge and Casa di Sassi Rosso brick soldier course and Fumo Flat Wall caps

Prestige Tan Weatherledge and Casa di Sassi Cream Hearthstone

Casa di Sassi Carbone Ledgestone and Fumo Flat Wall caps

Prestige Harvest Weatherledge with Casa di Sassi Cream Chiseled caps

# PRE-FINISHED RIAN FIREPLACE

11

Round Grove Products offers pre-finished products featuring a variety of stone finishes. Your outdoor fireplace arrives and requires very little time to be ready to use, even the same day as delivery!! First, pick a stone finish from the choices below:

Casa di Sassi

Prestige Stone Products

Provia Stone

Second, choose the fireplace size. The Rian Outdoor Fireplace is available in 30", 36", and 42" firebox widths. This is a two-piece assembly that is entirely pre-finished and ready for installation. The prefinished hearth ships separate but is easily assembled once the outdoor fireplace is set in place. All materials are included.

## Rian30

## Rian36

## Rian42

Third, let Round Grove Products do the finish work, then when your fireplace arrives, you pick it off the truck and set it into place. There's a handful of screws to fasten the hearth to the fireplace, a few access holes to cover, and a little touch-up mortar to apply. But Round Grove sends everything.

**Materials included:** • Fasteners • Mortar • Grout Bag • Mini Trowel • 5/8" Grout Tool

*\*Not certified for indoor use nor should they be located within 10 feet of combustible building materials.*

12

## OUTDOOR FIREPLACES

An important visual feature is the firebox opening. Your design can determine an arched, semi-circular, or rectangular firebox opening. Customize the hearth dimensions to fit the scale of your dream entertainment space. Include more details such as a television over the mantel, extend the chimney higher to achieve the draw your site requires, then cap it off with a spark-arresting chimney cap in either black, stainless, or copper.

Round Grove Products makes all of these fireplace elements available to create a custom fireplace that aligns with your specific design...shipped right to your site, ready-to-finish, minimal assembly, no delays.

## Legendary Outdoor Fireplaces

- 18 ga. galvanized steel construction
- Raised hearth feature
- Fire brick installed
- Includes stainless steel log grate
- Pre-scratch-coated
- Pass-thru option available
- Steel-reinforcement for mantel brackets

Raised hearth sold separately

BO-0116-RGP		16" Grill Rack for Brick Oven

16

## OUTDOOR BRICK OVENS

Brick ovens are available in four standard models or any size configured by your imagination. The brick oven is constructed with real firebrick with refractory materials that allow the unit to expand and contract with each fire. The most visible feature is the over-sized cast iron door that is manufactured in the U.S.A. that allows for larger items like roasts, cookie sheets, and cast-iron cook ware. A storage box is included under the brick oven, but you can add wood boxes on either side or design a work space and grill island to accompany the brick oven.

You can align the transition from the base to the chimney to be an important visual feature of your design—angled, squared, monolithic, or tapered. Or do something truly unique and incorporate a custom standing seam metal roof over the brick oven, then cap it off with a spark-arresting chimney cap in black, stainless, or copper.

Round Grove Products makes all of these elements available to create a custom brick oven that aligns with your specific design...shipped right to your site, ready-to-finish, no assembly, no delays.

## Outdoor Brick Ovens

- 18 ga. galvanized steel construction
- Pre-scratch-coated and ready-to-finish
- Fire brick installed on the interior
- Stainless steel chimney cap included (not shown)

## GRILL ISLANDS, CABINETS, & WOOD BOXES

The backyard barbeque has been a staple of American life since we first earned leisure time. We have matured from a simple charcoal grill beside the picnic table to an outdoor kitchen complete with a stainless grill, side burner, refrigerator, sink, storage, food prep, and seating for the family. Round Grove makes wood boxes for storing firewood, grill islands for any outdoor kitchen design, and bar height cabinets for dining and entertainment.

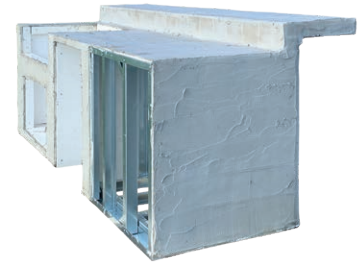

Round Grove Products makes all of these elements available to create an entirely unique and custom outdoor kitchen that aligns with your specific design...shipped right to your site, ready-to-finish, no assembly, no delays.

**Part # Outdoor Cabinets & Grill Islands**

- 18 ga. galvanized steel construction
