## CASCADE SERIES WARRANTY

### NATURAL LOW-MAINTENANCE WOOD

All Cascade Series playsets are guaranteed for **TWO YEARS** against defects in the manufacturer's workmanship or materials.

All Cascade Series Playsets are made from Pressure-Treated Grade 1 Pine and harvested stateside by companies who have aggressive environmental programs in place. Our treated wood

uses non-arsenic based, environmentally safe preservatives with proven long-lasting resistance to termites and fungal decay and carries a lifetime limited warranty against decay and termite infestation.

Extreme changes in temperature and humidity may cause expansion and contraction of wood. Consequential

damage is limited to repair or replacement of the defective component. No other warranties of merchantability are made by the manufacturer.

All Cascade Series Playsets can be painted or stained and will benefit from periodic cleaning and periodic water repellent coatings for its best appearance. © 2024

NOTICE: The product colors, availability, and specific details showcased in our print catalog are subject to change without prior notice. For the most current information and available options, we strongly recommend contacting us directly. We strive to provide the most accurate information at the time of print, but changes in our inventory or product specifications may occur.

PATIOVA PLAYSETS

# WITH #1-GRADE WOOD, CHILDREN CAN SOAR HIGHER.

We sincerely believe in the value of play for children's health and development.

We're passionate about building swing sets that create memories that last a lifetime.

Patiova Playsets are carefully crafted by our Amish craftsmen with environmentally friendly components, from the roof to the floor.

# WOOD PLAYSETS

Fade-resistant, extra-durable tarp.

Heavy-duty stainless-steel swing bearings.

Slides are heavy-weight, solid-to-the-core and resist sun and fading.

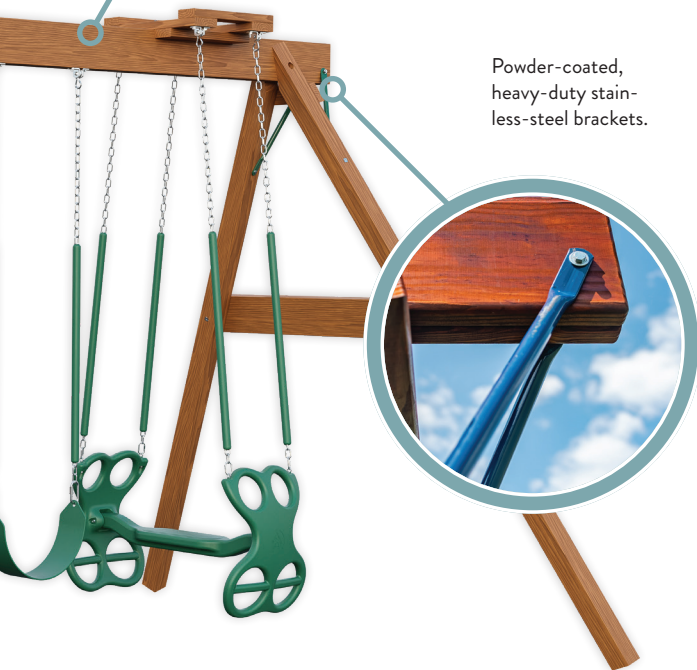

Floor boards are eco-friendly recycled plastic lumber. Strong, durable, and low-maintenance. **NO rotting, splintering, painting or staining!**

**OPTIONAL** Poly slats are eco-friendly recycled plastic lumber. Strong, durable, and low-maintenance. **NO rotting, splintering, painting or staining!**

Heavy-duty, double 2x6, vertical-edge swing beams.

Powder-coated, heavy-duty stainless-steel brackets.

All stains are hand-brushed, twice, for a streak-free finish.

## ENVIRONMENTALLY-FRIENDLY WOOD PLAYSETS

### WOOD IS NATURAL & EARTH-FRIENDLY

The wood harvested for our Cascade Series is in the southern states, where tree farming effectively prevents soil erosion. Thus, tree farming benefits our ecosystem by preserving topsoil and reducing soil runoff into creeks and streams. Since wood grows naturally, it is earth-friendly.

### WOOD IS A VERY RENEWABLE RESOURCE

Due to improved forest management, more wood is available now than 25 years ago. As long as we have sun and rain, we will never run out of wood!

### WOOD IS USER-FRIENDLY

If the wood becomes scratched, you can sand it. If necessary, wood components can be easily matched and replaced.

## MAINTENANCE

### ATTACHMENTS

Check that all attachments are secure three weeks after playset is installed. Continue to check regularly and secure as necessary thereafter.

### INSPECT REGULARLY FOR BROKEN OR DAMAGED PIECES

Splintered surfaces should be sanded smooth to avoid injury. Cracks resulting from weathering are normal and do not need to be replaced. Pieces with structural damage DO need to be replaced promptly.

### TIRE SWIVEL CARE

The swivel should be checked and lubricated on a regular basis.

### STAINING INSTRUCTIONS

A quality water sealer and/or stain can be applied if preferred. For best results, apply sealer/stain within a month after playset installation, following instructions on the product label. If you purchased a playset with a stain, it should be re-sealed within two years with a sealer/stain of your choice. When applying follow-up treatments, always follow the instructions on the product label.

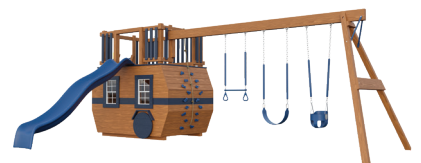

# The Scout

THE SCOUT #01

THE SCOUT #02

## SPECIFICATIONS

Tower Platform Height: 5'

Tower Platform Dimensions: 81" x 61"

Overall Footprint: 22' x 12'

**SPOTLIGHT**

## Superior Playsafer™ Rubber Mulch

Playsafer™ rubber mulch provides unmatched shock absorbency and helps reduce playground injuries. Playsafer™ chips are environmentally friendly, made from used rubber tires and require minimal maintenance, dry quickly after rain, and will not rot or decompose.

Forest Green

Royal Blue

Terra Cotta Red

Cocoa Brown

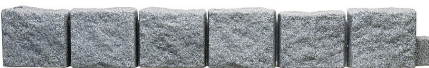

Black

Basic Black

## Premium Bueta Edging Blocks

By using edging blocks you are providing a clean, precise edge to your play area which helps keep loose surfacing inside and unwanted items outside of the play area. The patent-pending 'slide-on, slide-off' connection system offers endless border-shape options.

Greystone

Sandstone

Cobblestone

### DON'T FORGET THE...

## Protective Landscaping Fabric

Landscape fabric acts as a weed barrier and prevents heavy mulch, such as shredded rubber mulch, from sinking into the soil when the ground gets wet. By using landscape fabric, you'll make your layer of mulch last longer.

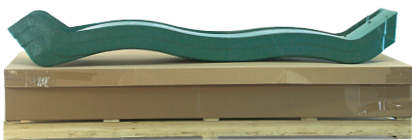

# Quick Ship Playsets

Are you looking for a compact playset quickly? We have just what you are looking for. We offer two wood and one vinyl Quick Ship playsets. These sets are in stock and ship within 3-4 business days! We do not make changes to these sets, they come as shown. The kits come with a step-by-step written and picture assembly manual.

Easy to ship, compact DIY kits!

REC. PLAY AREA: 38' x 26'

*"This was an easy and seamless process. I needed a small compact playset for my grandchildren. My kids moved into a new house with a small backyard. Patiova was perfect. They had what we needed and were very good about getting it to us, much quicker than we anticipated. And all easily done. I would use them again when my other kids buy a house and need a playset."*
